A severe rheumatic pain in the left shoulder had troubled Mr. J. H. Loper a well known druggist of Des Moines, Iowa, for over six months. At times the pain was so severe that he could not lift anything. With all he could do he could not get rid of it until he applied Chamberlain's Pain Balm. "I only made three applications of it," he says, "and have since been free from all pain." He now recommends it to persons similarly afflicted. It is for sale by all druggists.

PAINE'S CELERY COMPOUND.

Best Spring Remedy in the World-It Makes People Well,

There is one real spring remedy!

There is one true specific for diseases arising from a debilitated nervous system, and that is Paine's celery compound, so generally prescribed by physicians. It is probably the most remarkable remedy that the scientific research of this country has produced. Prof. Edward E. Phelps, M. D. IL. D., of Dartmouth college, first prescribed what is now known the world over as Paine's celery compound, a positive cure for dyspepsia, biliousness, liver complaint, neuralgia; riseumatism, all nervous diseases and kidney troubles. For the latter, Paine's celery compound has succeeded again and again where everything else has failed.

The medical journals of this country and Europe have given more space in the last few years to the many remarkable cases where the use of Paine's celery compound has made people well, than to any other one subject.
